Balanced Attack

NEW GRETNA, N.J. (September 2019) – Hitting the sweet spot in the V Series lineup, the V-37 shines as a versatile coastal or offshore fish-raising thoroughbred with the legs to run long distances powered by either twin or triple outboards.

Performance needs vary depending on region, fishing preferences, targeted species and other factors. With that in mind, we offer several different power choices: triple Mercury Verado 300s or 400s, triple or twin Mercury 450Rs; triple Yamaha 300s or twin Yamaha 425s. Ease of operation and comfort aboard are high priorities. Each engine installation can be equipped with joystick helm control featuring GPS station-keeping. The V-37 has been designed and engineered for a Seakeeper SK 3, which is mounted in the stringer grid and accessed through a gasketed, tightly sealed deck hatch.

The V-37 can be outfitted with an aft mezzanine seating module with armrests, tackle storage and an insulated cooler under the seat. And she's loaded with lockers, compartments and hardware that maximize storage while maintaining the boat's 360-degree accessibility. For instance, the standard lounge that's integrated into the forward console holds a cooler and dry storage, and the GG Schmitt transom seats can be flipped up and out of the way when it's time to fish.

From stem to stern, you'll find impressive standard storage and fishing features, including a 56-gallon transom live well and five overboard-draining in-deck fish boxes ranging from 45 to 123 gallons. You can swap out the forward lounge cooler for a raised live well, which provides quick access to bait while fishing from the bow. Other notable options include an additional live well in the cockpit deck, a dark blue transom live well interior to sustain bait life, 12V electric reel outlets, and live well inlet/discharge fittings in the transom corners.

The fiberglass hardtop can be equipped with an array of accessories that heighten fishing capabilities, such as a six-rod rocket launcher, molded-in electronics and radar pods and Lumitec spreader lights. You can also get a custom fabricated fold-down marlin tower and fixed or telescoping outriggers from Gemlux or Rupp. A variety of Costa Marine covers will help you protect your investment. Covers for the entire boat, all of the engines and individual areas such as the console, helm seating and lounge are available.

“Options are limitless,” says Valhalla Boatworks Sales Professional Sean Healey. “Not only are we providing the best center console out there, owners are getting the best equipment, hardware and features for a unique Valhalla experience.”

V-37

Length 36’ 9”
Beam 10’ 0”
Draft Engines Up (full load) 28”
Draft Engines Down (full load) 41”
Weight
dry (no engines) 9,640 lbs.
half load: 14,643 lbs.
full load: 16,623 lbs.
Deadrise 24 deg.
Fuel Capacity 470 gal.
Fresh Water 39 gal.
Waste 12 gal.
Max Engine HP 1,350
Live Well 56 gal.

Note: Draft and weight with triple 450 HP engines; half load, 50% liquids; full load, 100% liquids; no passengers or gear.
